DATASETS VIP

THE WEBINAR GROWTH SPECIALIST

01 | What A Webinar Growth Specialist Does:

You build and run the system that turns strangers into booked sales through a live webinar, and you get paid on the result.

STRANGERS

Cold traffic from ads, email lists, posts and partners.

›

THE WEBINAR MACHINE

Registration page, reminders, live session, offer, follow up and replay. You own every part.

›

BOOKED SALES

Paid visits, calls or orders the business can count and pay you on.

02 | Why Webinars Sell:

TRUST AT SCALE

An hour of watching you teach builds the trust a long sales call builds, with a hundred people at once.

ONE TO MANY

You pitch once to the whole room instead of twenty separate times to one person.

A BUYER WHO CHOSE YOU

They read the page, signed up and gave you an hour of their evening. That's a warm buyer.

49 to 55 min

average webinar engagement in recent ON24 benchmark data

03 | The Money In It:

ILLUSTRATIVE

PROJECT FEE

One webinar built and run, start to finish, for a fixed price.

Best for your first client

€6,000

MONTHLY RETAINER

Run it every month, keep improving it, report the numbers.

Best once the first one works

€2,000 a month

FEE PLUS A SHARE

A smaller fee up front plus a cut of what the webinar brings in.

Best with clean sales tracking

€3,000 + 10%

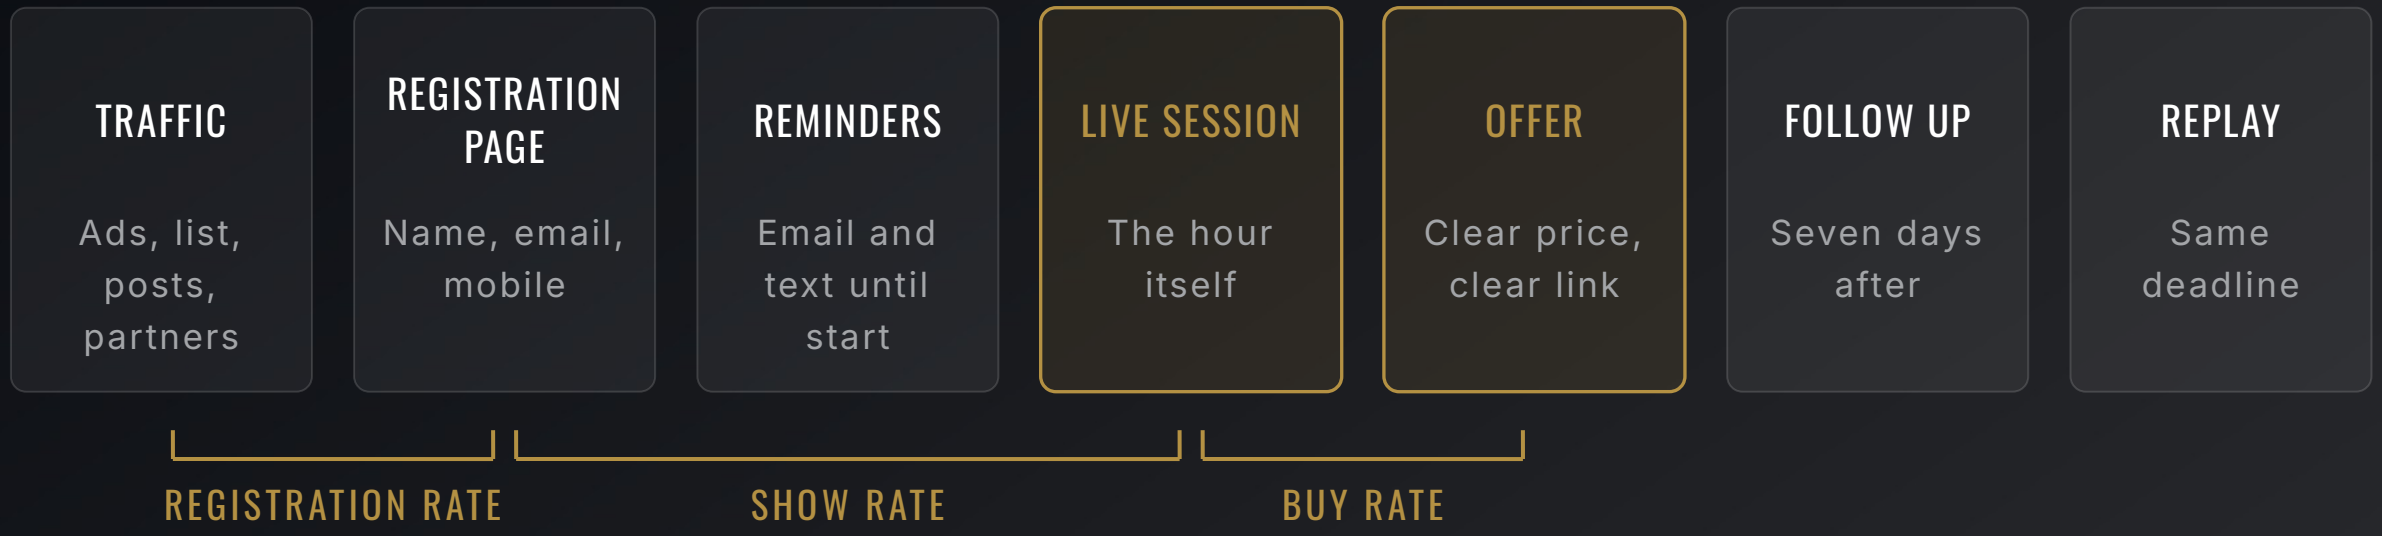

Published reference points: freelance funnel builders charge roughly $20 to $225 an hour (goLance, 2026). Consulting retainer examples sit around $4,000 to $7,500 a month (ClickUp, Clicksgeek). The euro figures above are for the builder example.

DATASETS VIP

PART ONE

THE WEBINAR FUNNEL

04 | The Full Webinar Funnel:

When a webinar isn't making money, one of these three rates is broken or the traffic is costing too much. Your job is finding which one.

05 | Traffic: Where Registrants Come From:

EMAIL LIST

Free and warm. Past enquiries and customers who never went ahead.

ORGANIC CONTENT

Posts, short videos, local groups. Free but slow, and hard to turn up when you need more.

PAID ADS

Fast and scalable, but it costs money. Measure cost per registrant from day one.

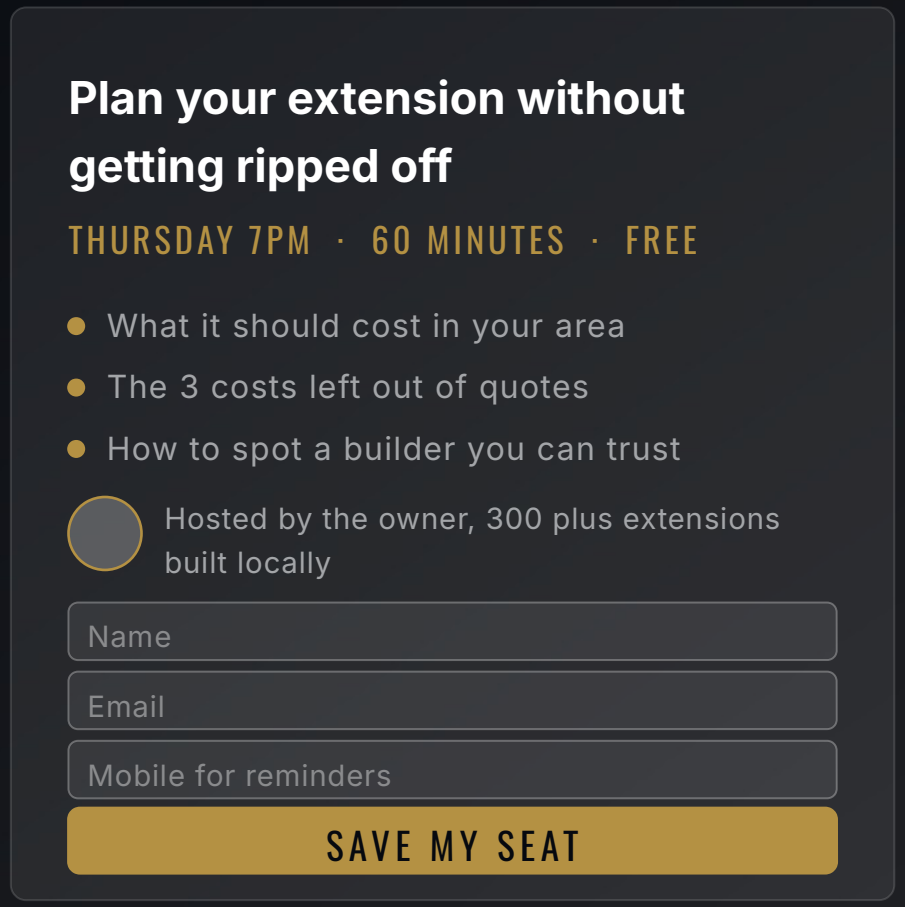

PARTNERS

Borrow a trusted audience. A kitchen firm or architect co hosts with the builder.

HOW TO CHOOSE

- **List first,** if they have one.
- **Proven offer and budget:** add ads.
- **Neither:** partners, and build the list as you go.
- **Always** track cost per registrant.

06 | The Registration Page:

- **Headline:** the result they want, in their words.
- **Date, time and length** right at the top.
- **Three promises,** each one specific.
- **Host photo** and one line of real proof.
- **Short form:** name, email, mobile for texts.
- **One button** with an action on it.
- **Fast on mobile,** button visible without scrolling far.

07 | Why Registration Pages Fail:

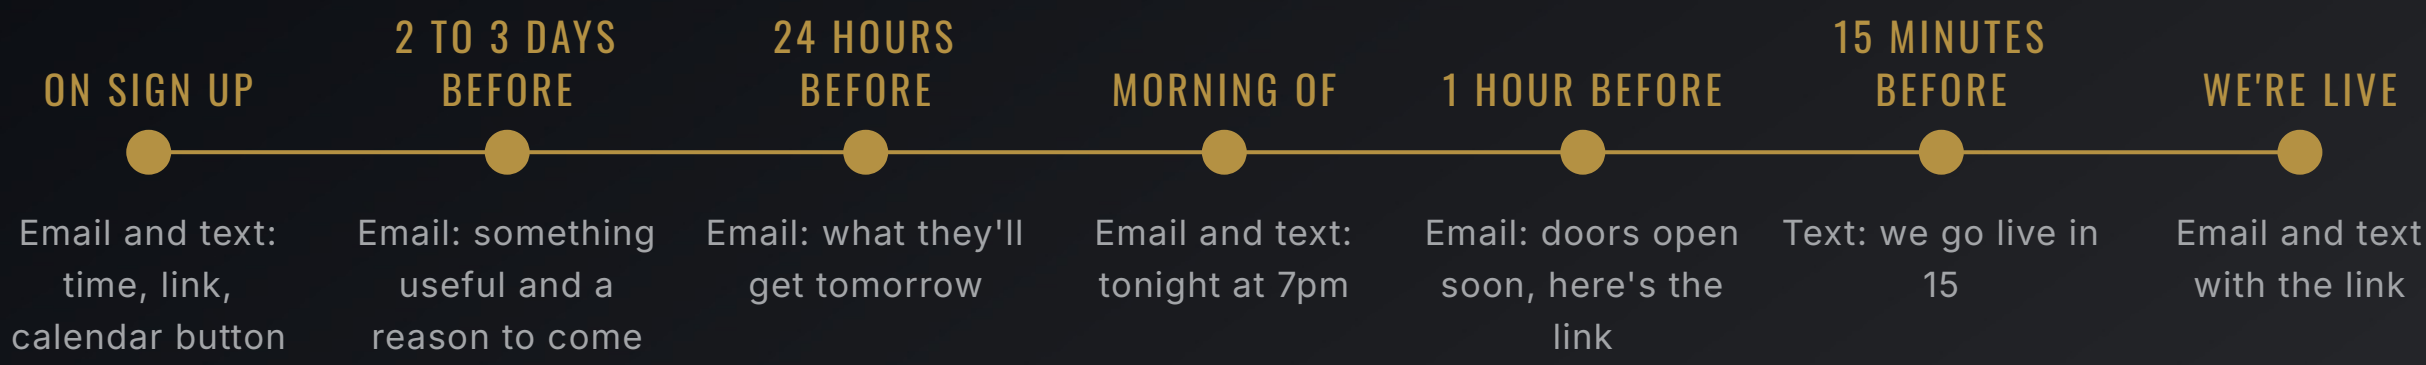

20 to 40%

of visitors sign up on a typical webinar registration page. Warm traffic from an email list converts higher.

Sources: GetResponse average of 22.84%; ClickMeeting 35 to 59% by traffic warmth.

Headline about the business.	›	Write the buyer's result in their words.
Date and time hidden.	›	Put them at the top of the page.
Too many form fields.	›	Ask only for what you'll use.
Slow on mobile.	›	Test it on a phone over 4G first.
Ad and page don't match.	›	Use the ad's promise as the headline.
Looks like a sales page.	›	No prices on it, and one button.

08 | Getting People To Turn Up:

15 to 33%

of registrants sign up on the day itself (GoTo, ON24, Livestorm data)

30 to 50%

typical live show rate (Goldcast, Univid, Livestorm data)

09 | Reminder Messages You Can Copy:

ON SIGN UP

TEXT

You're booked in for Planning Your Extension, Thursday at 7pm. Your link: [link]. Save this number so you get your reminder.

MORNING OF

EMAIL

Subject: Tonight at 7, the 3 costs builders leave out of quotes

Doors open at 6.55pm. Bring your rough budget, I'll show you how to check any quote line by line. Join here: [link]

15 MINUTES BEFORE

TEXT

We go live in 15 minutes. Grab a cuppa and join here: [link]

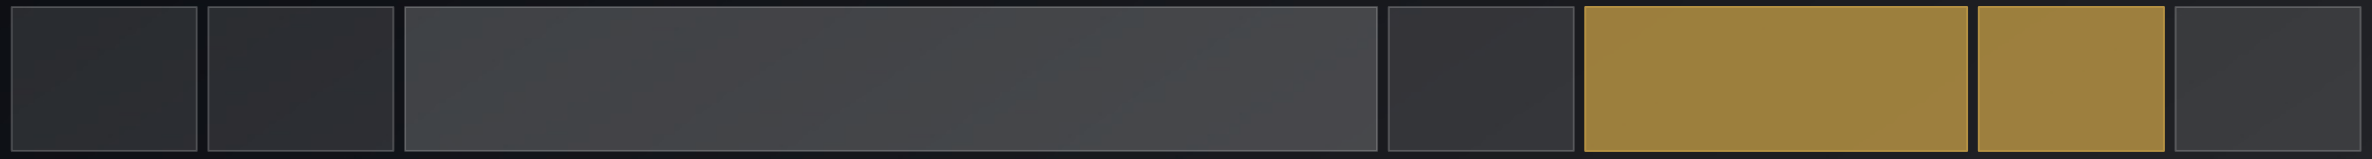

Test every link on your own phone before the sequence goes live.

DATASETS VIP

PART TWO

RUNNING THE WEBINAR

10 | The Webinar, Section By Section:

HOOK	STORY	TEACHING	BRIDGE	OFFER	CLOSE	Q AND A
0 to 5	5 to 10	10 to 35	35 to 40	40 to 50	50 to 55	55 to 60

Minutes into a 60 minute webinar

ABOUT AN HOUR

Typical length on ON24's platform, with average engagement of roughly 49 to 55 minutes.

THE RULE

If you can't fill 60 minutes with good material, run 45. Padding loses people right before the offer.

11 | The Hook And The First Five Minutes:

MIN 1 **Say the result and who it's for.**
Start on time, start strong.

MIN 2 **Give a reason to stay to the end.**
A bonus only for people who are live.

MIN 3 **Deliver a quick win.**
Something useful in the first few minutes.

MIN 4 **Get them typing in the chat.**
Early typers stay longer.

MIN 5 **Lay out the plan for the hour.**
Mention you'll show how to work together at the end.

THE BUILDER'S OPENING LINE

"By 8 o'clock tonight you'll know what your extension should cost, the three costs that get left out of quotes, and how to spot a builder you can trust before you hand over a deposit."

12 | The Credibility Story:

WHERE THEY WERE

Working for a firm that underquoted every job.

WHAT WENT WRONG

Families hit with extras halfway through the build.

WHAT CHANGED

He started pricing every job line by line, with fixed quotes.

PROOF NOW

300 plus extensions in the area, with photos and reviews.

Five minutes, and about the buyer. Proof beats bragging: show a finished job with the homeowner's review. Use only what's true for your client.

13 | Teaching That Sells Without Giving Everything Away:

ON THE WEBINAR

Teach the what and the why.

IN THE OFFER

Sell the how and the doing.

THREE POINTS, EACH ONE CLEARS A DOUBT

1	What an extension costs per square metre locally	clears	*“I can't afford it.”*
2	The three costs that get left out of quotes	clears	*“Builders always rip you off.”*
3	How the process runs, with real timings	clears	*“It'll take forever.”*

14 | The Bridge To The Offer:

“You now know what it should cost and what to watch for. The quickest way to get it right is a fixed price plan for your house.”

1 RECAP

Run back through the three points so they feel what they've learned.

2 SHOW THE GAP

Knowing what to do and getting it done are different things. Name what's missing.

3 ASK PERMISSION

“Want me to show you how we do it with you? Pop a yes in the chat.” Wait for the yeses.

15 | Presenting The Offer And Stacking Value:

ILLUSTRATIVE

WHAT'S INCLUDED	WHAT IT GETS THEM	VALUE
Measured survey	Exact sizes, no guesswork	€400
3D concept drawings	See it before you commit	€600
Fixed price written quote	Every line itemised	€250
Planning check	Know what's allowed	€300
Total value		**€1,550**
Tonight	Comes off the build	**€295**

THE RULES

- One line per item, with an outcome and an honest value.
- Say the price once, clearly.
- Live bonus: a priority start slot.
- Link on screen, in the chat, and said out loud.

16 | Handling The Live Close:

A REAL DEADLINE

Say when it ends and keep to it. Fake deadlines kill the next webinar.

A BONUS FOR TONIGHT

Something that only makes sense for people who decide fast.

READ OUT BOOKINGS

With permission, and only when they're real.

LINK STAYS ON SCREEN

Through the whole of the questions.

REPEAT THE OFFER

Two or three times as you answer questions. People join late.

ANSWER THE WORRY

A question about timings is usually a worry about disruption.

17 | Objections On The Day:

“I can't afford it.”

The €295 comes off the build, and you leave with a fixed price, so you know where you stand.

“I need to talk to my partner.”

Book a time you're both home. Keep the drawings and quote even if you don't go ahead.

“I'm not sure it'll work for my house.”

Type your situation in the chat and I'll answer it live, right now.

“I'll do it later.”

Start dates book up months ahead. The priority slot is for this week's bookings only.

18 | Follow Up: The 7 Day Sequence And The Replay:

DAY 0	DAY 1	DAY 2	DAY 3	DAY 5	DAY 6	DAY 7
0	1	2	3	5	6	7
Replay link and offer recap	Top questions answered	Case study: one real job	The cost of waiting	Replay comes down tomorrow	Last day, email and text	Doors closed, next date

THE REPLAY

Same deadline as the live offer. Add timestamps so people can jump to the offer. Take it down when you said you would.

42 to 43%

of webinar views come from on demand replays (Contrast; ON24, 2025)

DATASETS VIP

PART THREE

THE NUMBERS

19 | The Five Numbers You Track:

NUMBER	HOW TO WORK IT OUT	PLANNING RANGE	SOURCE
Cost per registrant	Ad spend ÷ registrants	Varies widely, test your own	GrowthSpree; WordStream
Registration rate	Registrants ÷ page visitors	20 to 40%	GetResponse; ClickMeeting
Show rate	Live attendees ÷ registrants	30 to 50% live	Goldcast; Univid; Livestorm
Buy rate	Buyers ÷ live attendees	5 to 15% on a sales webinar	ClickMeeting; EasyWebinar; Focus Digital
Revenue per attendee	Revenue ÷ live attendees	Your own number to beat	Your client's data

Published ranges come from vendor benchmarks and tell you where to look. Your client's own numbers, webinar after webinar, are what you manage.

20 | Find The Broken Stage:

SYMPTOM	WHERE TO LOOK	FIRST FIX
High cost per registrant	Ads and targeting	Test three new ad angles to the same page
Low registration rate	The page and the promise	Rewrite the headline on the result, cut fields
Low show rate	Reminders and timing	Add texts, and check the slot suits the buyer
Low buy rate	The offer and the pitch	Fix the bridge, the stack and the deadline

One fix at a time, then run it again. Change four things at once and you'll never know which one worked.

21 | Worked Example: The Builder, Before:

ILLUSTRATIVE

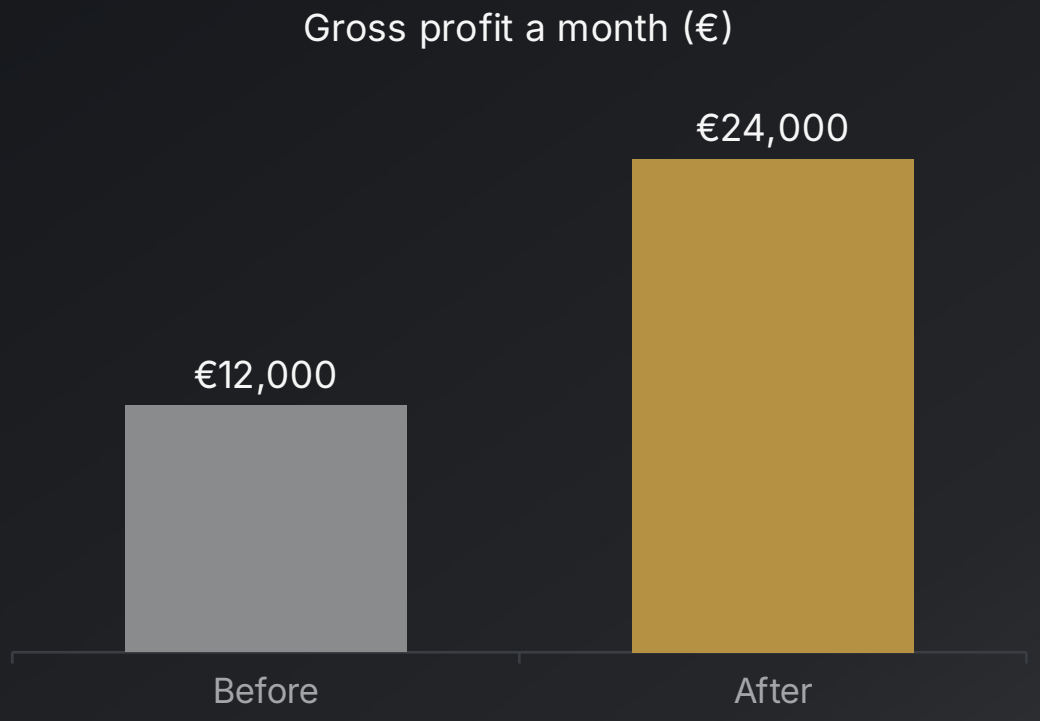

€2,500	250	50	5	2	€12,000
ad spend a month	registrants at €10 each	live, a 20% show rate	design visits, a 10% buy rate	jobs, 40% of visits	gross profit on €60,000 revenue
		BROKEN STAGE			

Diagnosis: cost per registrant and buy rate look healthy. A 20% show rate sits well below the 30 to 50% range. Reminders were email only, and the webinar ran at 1pm on a weekday while homeowners were at work.

22 | Worked Example: Fixing One Stage:

ILLUSTRATIVE

	BEFORE	AFTER
Show rate	20%	**40%**
Live attendees	50	100
Design visits	5	10
Jobs	2	4
Revenue	€60,000	€120,000
Gross profit	€12,000	**€24,000**

Same €2,500 spend, same 250 registrants. Texts added, slot moved to 7pm, profit doubled.

PART FOUR

BECOMING ONE

23 | The Tools And What Each Is For:

THE WEBINAR ROOM

Runs the live session.

Zoom Webinars, Livestorm, WebinarJam, ON24

PAGES AND FORMS

Your sign up pages.

GoHighLevel, ClickFunnels, Leadpages, WordPress

EMAIL AND TEXT

Reminders and follow up.

ActiveCampaign or GoHighLevel, plus a text provider

BOOKING AND PAYMENTS

Takes the money or the booking.

Calendly, Stripe

TRACKING

Shows where sign ups came from.

Meta pixel, Google Analytics, tagged links, one sheet

SLIDES AND REPLAY

The deck and the recording.

Canva or Keynote, platform recording

24 | The Skills, In The Order To Learn Them:

1
FUNNEL MATHS
A weekend with a spreadsheet

2
COPYWRITING
Write every single day

3
WEBINAR SCRIPTING
Script imaginary webinars

4
TECH AND AUTOMATION
Build your own demo funnel

5
TRAFFIC BASICS
Run a small Meta test

6
READING THE NUMBERS
Diagnose public webinars

7
SELLING YOUR SERVICE
Outreach, calls, proposals

25 | Choosing A Niche And Your First Client:

WHAT MAKES A GOOD NICHE

- **High value sale,** ideally €3,000 plus.
- **They sell by talking** to people already.
- **They have leads** or budget for them.
- **Someone can present,** or you train them.
- **You understand** their customer.

NICHES THAT FIT

- Extension builders
- Solar and heat pumps
- Dental implant clinics
- Financial advisers
- Mortgage brokers
- B2B software
- Accountants
- Training providers

YOUR FIRST CLIENT

Someone you can reach directly through your own network. Warm intros get meetings in days.

26 | Outreach Messages That Get Replies:

COLD, TO THE BUILDER

Hi Declan, I tried calling twice this week and got voicemail both times, which makes sense when you're on site. Every missed call is a job going elsewhere. I build evening webinars where homeowners learn your process and book a paid design visit online, no phone tag. If that's worth a 15 minute chat, reply yes and I'll send two times.

WARM, TO PEOPLE YOU KNOW

Hey Ciara, quick one. I've started building webinars that get local businesses booked sales, things like builders and clinics. If you know an owner who sells something over €3,000 and wants more of the right enquiries, I'd love an intro. I'll look after them.

20 a day is 100 a week. No replies after 100, rewrite the message. Replies but no calls, fix your follow up.

27 | A Simple Offer And What To Show On The Call:

ILLUSTRATIVE

THE FIRST OFFER

“I'll build and run one webinar for you, start to finish, for €6,000. If it doesn't book at least 5 paid design visits, I'll run the next one free.”

WHAT TO SHOW ON THE CALL

1. Their numbers on the funnel diagram
2. The cost of the problem, worked out with them
3. A teardown of their current page or process
4. A simple 30 day plan
5. Proof: your demo funnel or a past result

28 | Pricing: Put A Number On The Problem:

ILLUSTRATIVE

20	›	1 in 10	›	2	›	€60,000	›	€12,000
missed calls a month		would have become a job		jobs lost a month		revenue lost a month		gross profit lost a month

€144,000

a year in lost profit. Work it out with the client using their own numbers, and write it where they can see it.

29 | Price Against The Problem:

ILLUSTRATIVE

Value of the fix: 4 jobs a month and €24,000 gross profit a month, from the worked example.

PROJECT FEE

€6,000

Paid back by the profit on one job.

RETAINER

€2,000 a month

Three month minimum, run and improved monthly.

FEE PLUS SHARE

€3,000 + 10%

10% of gross profit on webinar jobs. At 4 jobs, €2,400 a month.

Against a €144,000 a year problem, every option is an easy yes.

30 | Delivering A Client Project:

WEEK 1
KICKOFF AND RESEARCH

- Agree offer, date, numbers
- Interview 3 to 5 past customers
- Pull their words for the copy

WEEK 2
BUILD

- Script and slides
- Pages, reminders, follow up
- Tracking, client sign off

WEEK 3
PROMOTE

- Registration opens 7 to 10 days out
- Email the list, ads on
- Partner emails go out

WEEK 4
LAUNCH

- Full dry run two days before
- Go live, run the 7 days
- One page report and next steps

31 | Launch Day Checklist:

- [ ] Every link tested on mobile
- [ ] Reminder sequence on and tested
- [ ] Payment tested with a real purchase
- [ ] Offer slide: price and deadline checked
- [ ] Presenter dry run on the platform
- [ ] Audio, camera, wired internet
- [ ] Chat moderator briefed with answers
- [ ] Recording switched on
- [ ] Backup link ready to text out
- [ ] Follow up sequence scheduled
- [ ] Replay page ready, same deadline
- [ ] Tracking sheet ready for tomorrow

32 | Ten Mistakes That Kill Webinars, 1 To 5:

	MISTAKE	FIX
1	The title is about the business	Name the result the buyer wants, in their words
2	Registration opens the day before	Open 7 to 10 days out, push hardest in the last 48 hours
3	Email only reminders	Add texts for the morning of and 15 minutes before
4	The time suits the business	Pick when the buyer is free, then test one other slot
5	Teaching everything	Three points, the what and the why

33 | Ten Mistakes That Kill Webinars, 6 To 10:

	MISTAKE	FIX
6	The pitch comes out of nowhere	Use the bridge: recap, show the gap, ask permission
7	A vague offer	Stack each item with an outcome and an honest value
8	Fake scarcity	A real deadline, and keep it
9	No follow up	Run the 7 day sequence and send the replay
10	Numbers aren't tracked	Five numbers in one sheet after every webinar

34 | Your 30 Day Plan To Land The First Client:

DAYS 1 TO 7

- Learn the funnel maths
- Build your own demo funnel
- Sign up to 5 webinars, take notes

DAYS 8 TO 14

- Pick your niche
- List 100 businesses
- Write 3 teardowns

DAYS 15 TO 21

- 20 messages a day
- Follow up after 3 days
- Book calls

DAYS 22 TO 30

- Run the calls
- Proposal within 24 hours
- Close one, run the kickoff

The goal is one client. One client gets you a case study, and a case study gets you the next five.

35 | Summary:

YOUR ROLE

Own the whole system and get paid on the result.

FUNNEL

Seven stages, three rates: registration, show, buy.

ON THE NIGHT

Hook, story, teaching, bridge, offer, close, questions.

NUMBERS

Fix one stage at a time. The builder doubled profit on the same spend.

PRICING

Price against the problem: €144,000 a year makes €6,000 easy.

NEXT 30 DAYS

Demo funnel, niche, 100 messages, one client in 30 days.

Pick your niche this week and send your first ten messages by Friday.
